

Program no-10

```
public class Whileloop
{
    public static void main(String args[])
    {
        int i=1;

        while(i<=10)
        {
            System.out.println(i);
            i++;
        }
    }
}
```
